Mines That Have Been Worked Steadily for Three Centuries Are Still Giving Up Their Riches: Most Varied Assortment of Minerals Ever Mined in One Locality Won the Grand Prize at Louisiana Exposition: Business Houses Know Not Meaning of "Hard Times.": Civic Improvements Up-to-Date.

southwest. The expression, "business the Carpenter district. is dull," too often heard in other sections of the territory seems to be been shipping train loads anter for unknown here. The business men of the town all wear the glad smile that baspeaks prosperous conditions and speaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that baspeaks prosperous conditions of the town all wear the glad smile that t that baspeaks prosperous conditions tions of tons of this metal. and if there is any poverty here it a not in evidence.

There is a very good reason for the of the richest mining regions in the southwest. I will let M. W. Porterfield, one of the veteran business men treasure vaults of this section. He has given much attention to the mining interests of Grant county and what he says in the following interview can be relied upon as authentic in every particular.

Silver City a Mining Center. Mr. Porterfield said:

The hills and mountains surroundhistories of treasure vaults which have not only contributed to the wealth and prosperity of that city and years to come." to the territory, but the recital of the valuable "ands" and rich "strikes" give to the place a romantic charm which adds to the present interest and illuminates its past.

camps tributary to Silver City, presents a diversity of mineral products rarely surpassed by any area of similar extent. In this connection it will hibit from this locality at the Louisians Purchase exposition was awarded the gold medal for the greatest variety of minerals exhibited by any state or country at the world's excommercial importance are prefitably mined here and many rare minerals of value also are found. Gold, silver, copper, lead, zine and iron mines contribute to the wealth of this mining center as well as to the whole world by their continuous production of these staple metals. To this diversity of products is largely due the almost uniform volume of business and gradual growth of this business center through all the changing vicisitudes of markets and financial conditions, for the reason that when the price or demand for one product it is compensated for by a good de- operate mand for some of the other products. There is always something doing In addition to the metals mentioned are the turquoise mines of the Burro mountains which have produced the milions in valuable gems. These gem deposits have yielded their treasures to another and coller race of people as is evidenced by the extensive excast least of the American National are C. C.
